ence and decking maintenance

ntaining your outdoor fencing and decking is crucial for ensuring their gevity and keeping them looking their best. Here are some key tips and s to help you with this task:

ular Cleaning

cing: Clean your fence at least once a year. Use a garden hose to ove loose dirt and debris. Avoid using a pressure washer as it can age the wood.

king: Sweep your deck regularly to remove leaves and dirt. A pressure her can be used on decking, but keep it on a low setting to avoid age.

ect for Damage

ing: Check for signs of rot, insect damage, or loose boards. Repair or ce any damaged sections promptly to prevent further deterioration.

ing: Look for loose nails, screws, or boards. Tighten or replace them as needed. Also, check for signs of rot or insect damage, especially in areas where water tends to collect.

Staining and Sealing

Fencing: Apply a wood preservative or stain every 2-3 years to protect against moisture and UV damage. Choose a product that offers both water and UV protection.

Decking: Stain and seal your deck every 1-2 years. This helps to protect the wood from moisture, UV rays, and wear and tear. Make sure the deck is clean and dry before applying the stain or sealant.

Preventative Measures

Fencing: Trim any vegetation that is in contact with the fence to prevent moisture buildup and rot. Ensure the base of the fence is not in direct contact with the soil.

Decking: Use outdoor rugs or mats in high-traffic areas to reduce wear.
