Attachments: photo_historical_Consultation_Letter.pdf

Hello Francesca,

I hope you are doing well,

Upon reviewing the supplied information there are no objections to undertake the removal of T9 from the report in line with the tree report.

With the condition that the tree be replaced at a ratio of 3:1 at a size of 10-12cm at 1m as per bs 8545 the next planting season post the works November to March. The species should be alder if a different species is desired to be planted it will need to be agreed by NCC Tree Team. Evidence of the planting (photos) and establishment (a live and growing) should be provided after 2 years and should the trees die they should be replaced and the establishment period restarted.

Cofion Cymes / Kind Regards,

Richard Baron
