Thank you for asking for our comments

We would anticipate that the development require the following

For recycling

2 x 660 litre bins for cans plastic and paper and card

1 x 360 litre bin for glass

1x 240 litre bin for food waste

For refuse

1 x 1100L

We note the presence of a bin store - bin stores should be large enough to accommodate bins as well as allow for manoeuvrability. Supplementary planning guidance on waste and recycling to show storage and collection requirements can be downloaded at

We are seeking clarification on the bin collection area where is plan this to be located? .

Who will move bins from the bin storage area on the collection day? Adn, please check size of storage area to ensure bins fits.

From April 1st 2020, developers or owners of all new residential units will be required to purchase bin provision for each unit serviced to meet the Council's specification. 120L, 180L, 240L and 360L wheeled bins must be purchased/obtained from Newport City Council. 660L and 1100L bins can be purchased elsewhere but it is strongly recommended to speak to NCC Waste Management Refuse Management beforehand to ensure the bins fit the Refuse Department collection vehicles safely. Failure to purchase correct bin(s) will result in collections being suspended with the Council reserving the right to refuse collection until suitable bin specifications are met.

Best wishes

Concha
