

## **GREEN INFRASTRUCTURE STATEMENT**

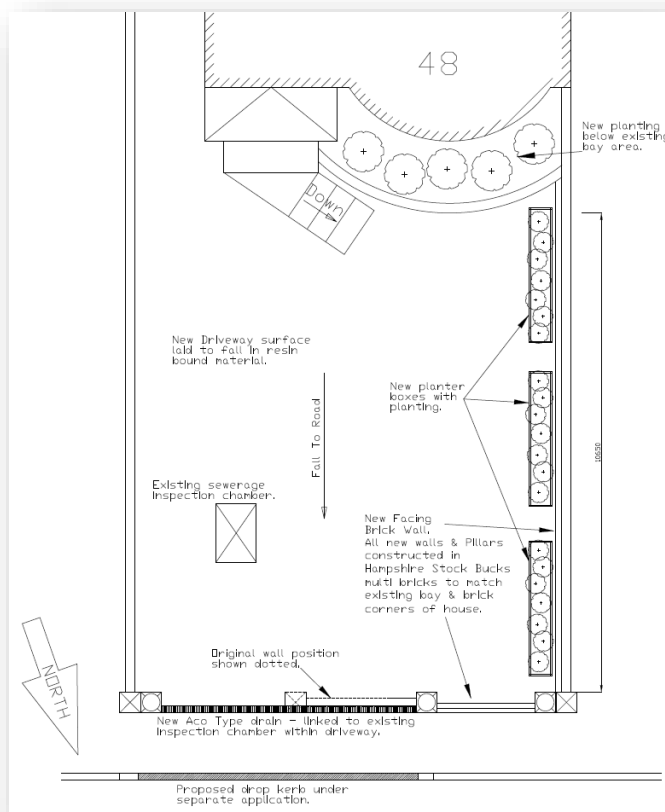

### **48 Pillmawr Road, Newport, NP20 6WG: Householder Works to Driveway**

PPW Chapter 6 requires that relevant applications should be supported by a Green Infrastructure Statement with details/measures proportionate to the scale and nature of the developed proposed. In the case of the minor development for driveway enhancement works at 48 Pillmawr Road in Newport, the following matters are observed and noted.

Policy GP5: Natural Environment requires development proposals to encourage biodiversity on consideration of green infrastructure provision. The works have commenced onsite and the proposals for completing the works include the following biodiversity enhancements through the planned provision of the following:-

- As shown on the proposed layout below, planter boxes are to be provided in safe locations to the edge of the parking area;
- Established border adjacent to home frontage to be replanted, as also illustrated on the proposed layout below. The new planting will include bee friendly plants including lavender, foxgloves and dahlias; and
- As shown in the table below, to the rear garden the applicant proposes to incorporate 2 no. bird boxes and bug hotel provisions to the rear garden.

### **Proposed Layout**

Biodiversity measures to be provided within the rear garden:

Thompson & Morgan Traditional Wooden  
Bird House x2

Relaxdays Insect Hotel 29 x 33 x 13.5cm:  
Bee Butterfly Hotel of Natural Materials  
Insect, Wood House with flat roof.

Based on the suggested measures above and appeal application submission, the proposed small-scale development will provide a green infrastructure benefit to flora and fauna provision.
