Hi Vicky,
Please find attached the amended details.
I have shown the location of the cycle shed on the site plan.
I have shown 2 Acers in Planting Area B. It is tight due to the relocated
Soakaway and the public sewers.
I note Kevin's comments on the gates. The gates are wider than necessary
so incorporate visibility. It is a straight line access/egress serving one property.
If you have any queries, please let me know.
Thanks.
Kevin
