

A diagram showing a closed loop defined by a dashed purple line. The interior of the loop is divided into two regions: region 1 is the area above the loop, and region 2 is the area below the loop. The word "environment" is written in red across the middle of the diagram, with the "e" and "n" overlapping region 1 and the "v" and "i" overlapping region 2. A horizontal black line passes through the middle of the loop, also passing through the word "environment".

	Line/Fire Valve
	Governor Station
	Change of Diameter
	End Cap
	Depth of cover

Scale: 1:2563 (When plotted at A3)

- This information is given as a guide only and its accuracy cannot be guaranteed
- The plan only shows those pipes owned by Wales & West Utilities (WWU) as its role as a licensed Gas Transporter
- Service pipes, valves, syphons, stub connections etc. may not be shown but their presence should be anticipated
- You must use safe digging practices in accordance with HS(G)47 to establish the actual position of mains, services and other apparatus before any mechanical excavation is used
- It is your responsibility to ensure this information is provided to all persons working near our plant
- If in doubt call the WWU dig team on 02920 278912
