

## HS18: Scaffolding handover certificate

|                                      |                                                               |
|--------------------------------------|---------------------------------------------------------------|
| Name of Contractor                   |                                                               |
| Site Address                         | Somerton Park Garage, Cromwell Rd, Newport, Newport, NP19 0HT |
| Date on hire                         |                                                               |
| Description of structure handed over |                                                               |
| Design drawing No (where applicable) |                                                               |

The scaffolding described above has now been completed and complies with the requirements of The Work at Height regulations 2005 and BS 5973 or EN 12881-1. (Delete as appropriate) It is structurally sound and should be used and loaded in accordance with our quotation No\_\_\_\_\_.

If no Quotation use only for Very light/Light/General purpose. (Delete as appropriate)

The scaffolding must be inspected by a competent person at intervals not exceeding 7 days since the last inspection, or following exposure to weather conditions or any other effect likely to have affected its strength or stability, or following any substantial alteration, addition dismantling or adaptation. This inspection must be recorded in the appropriate format, and its purpose is to determine that the scaffolding complies with the Regulations.

It is the responsibility of every employer who has use of the scaffolding to ensure that the requirements of the regulations are complied with.

NB Protective sheeting must only be attached to scaffolding structures that have been specifically designed to take them.
