Subject: RE: Planning Consultation Request for case ref: 26/0459

Hello,

Due to the number of trees on site we will require a bs5837 compliant tree survey in order to comment further on this along with a planned layout. There are some concerns over this site and how the development will be designed and its impact on the trees.

The Survey would allow the design to be made around the pre existing trees as they should inform the design with appropriate protection measures.
