This was a feature that Cadw suggested. As per the listed building consent decision notice, there is an advisory at the bottom which mentions this element. If you could note this on the drawings then that would be great.

Many thanks,

Laura Smith

Hi Laura,

Thanks for the reply.

Of course, I will follow what you think is best!

I just thought that style on the walls and then the piers capped with a flagstone, (that's on the other wall on the other side of the outbuilding).

Would you be happier with that style on the piers, if so I will add a note to the drawing stating this will be done.

Many thanks,

Paolo

Hi Paolo,

Thanks for this. It was mentioned that it would be better to have a cock and hen style coping to the piers, to match the wall. Is this something you have considered?

Many thanks,

Laura Smith

Subject: Piers

Hi Laura,

I hope alls well with you.

If its OK I have attached the pdf with the design for the piers and wall entrance. Hopefully this is what you need, if so I will get that form you sent completed with it and send off to planning (I have also taken photos of the paving stones against the wall and outbuilding, so you can see them as well), there are a couple of good matches I think.

All the best,

Paolo
