Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I don't object to the actual extension, but I do object to the noise and anti social hours that builders will work. Having lived through the huge amount of alterations and the destruction of the gardens and trees from this household. We have had builders start as early as 7am and carry on until 10pm. There will need to be some form of agreement with the council that you will take responsibility for complaints due to noise or fires, which again there have been some issues with in the past. It is a shame that this conservation area has been decimated by Newport council planners, there is really nothing left of what was a beautiful area and which we trusted you to conserve. Instead you have allowed people to destroy much of what made this place worth living in.
Where did you hear about this application?	Not specified

Kind regards
