Subject: 25/0397 - Uskmouth Power Station NASH (D.O.C. 7 and 8) - NRW
Response NRW:01216903

Dear Joanne

Thank you for consulting Natural Resources Wales on the above application.

We consider we did not request conditions 7 (battery safety management plan) and 8 (replacement battery unit scheme) of 23/0835 S73 application to vary condition 1 (approved plans) and condition 02 (site investigation and risk assessment) of 22/0823, which this application is seeking to discharge. We therefore do not have any comment to make on the discharge of these conditions.

Please note, our decision not to comment does not rule out the potential for the proposed development to affect other interests, including environmental interests of local importance.

The applicant should be advised that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents relevant to their development.

We trust the above information is of assistance, however, should you have any queries, please do not hesitate to contact me.

Kind regards

Annabelle Evans
