As a resident living at 4 Traston Avenue, I feel I must contact you raising my objections to the said plan. Who in their right mind thought that siting what is suggested would be acceptable to the residents living in the area. I believe that activities would take place from 8am to 10pm Monday to Friday, and similarly Saturday and Sunday.

Firstly that would mean extra traffic for players and their supporters. I'm sure you are aware the amount of traffic using the main road at the present. Imagine what it would be like with that traffic, especially as the proposed entry/exit to the park is to remain where it is now. As it is now, this area is a 'no go area' between the hours of 2.30pm and 3.30pm from Lliswerry High School, cars parking everywhere. Also, if there is trouble on the M4, then traffic comes off at Junction 23A. Need I say more?

Secondly, there is the question of noise. The proposed stands are so close to our houses that the noise would be unbearable, most likely this would come from not only players and supporters but loudspeakers.

Thirdly floodlights. Will they be on all night, as happens at the velodrome.

Has anyone even given a thought to residents as far as health and safety is concerned? I don't think so. My late husband, myself and our children moved here on 7th February 1972 and lived a very happy life, having accepted the many changes that took place in the adjoining park. Now living on my own, I was hoping to continue to do so. It would seem however, that outside forces have a different idea. So please give due consideration to my objections.

Regards

Looking at the letter I sent re. The above, I realised that I made a typing error, I entered my address as **no.4 instead of 14**. Apologies.
