24th July 2025

Dear Sir

**Re: Proposed swale and greenway on land east of Phase 4C and west of Phase 4E/4G
Glan Llyn Development Site Queensway Llanwern Newport South Wales
Pl.App.No.: 25/0438**

Thank you for consulting us about this application; consequently we have reviewed the detailed information contained on your website.

Information in the Historic Environment Record, curated by this Trust, shows that the application area is located within the Archaeologically Sensitive Area of the Levels; an area of reclaimed marshland that has been exploited by humans for at least 6000 years. Previous archaeological investigations within the surrounding area have encountered evidence of Bronze Age settlement and extensive Roman activity, including peat cutting and maritime activity. Therefore, it is likely that such remains may also be encountered within the proposed application area and there is also potential for clay and peat deposits to contain palaeoenvironmental remains.

As you may recall from our previous responses in relation to the entirety of the Glan Llyn Development Site (initially 06/0471/0), the potential impacts on the archaeological resource of this development have been considered and an approval of both the Archaeological Management Plan; western sub area (20th May 2014), and Archaeological Management Plan; Celtic Business Park (19th November 2014), allowed for various forms of appropriate archaeological mitigation by means of written schemes of investigations for differing areas and phases of the wider development.

However, whilst the proposals will require ground intrusion works, they are relatively limited in scale. Furthermore, modern aerial photography indicates that the development area has been subject to significant levelling/landscaping. Overall, it is unlikely that archaeologically significant material will be encountered during the course of the proposed works.

As a result, there is unlikely to be an archaeological restraint to this proposed development and consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application. The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust.
