Dear Sir

Re: Pod/Outbuilding in Rear Garden:
56 Stow Hill Newport.
Pl.App.No.: 26/0251.

Thank you for consulting us about this application; consequently we have reviewed the detailed information contained on your website.

We have consulted the regional Historic Environment Record and note that the application area is situated within the Newport City Centre Archaeologically Sensitive Area, in a location developed as part of the post-Medieval extension between the Medieval town centre and the Medieval St Woolos area. There are no known archaeological sites within the development area itself, although a cross base is noted in the HER and marked on historic mapping sequences, apparently now built into the raised pavement. The impact of the proposal will be minor in an area which has been disturbed.

As a result, there is no archaeological restraint to this proposed development and consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application. The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust.

If you have any questions or require further advice on this matter please do not hesitate to contact us.

Yours faithfully

Judith Doyle
