Subject: CONIN 13/1279

Hi Geraint, with regard to the above application, the documentation received on the 9th April, is a complete redesign of the site including layout and property types and therefore all of my previous comments are no longer valid. I am having difficulty determining which of the properties are proposed as the affordable units as this is no longer clear. The previously identified area for affordable housing has been redrawn and the properties in this area no longer meet Welsh Government standards, if these are proposed to be the affordable housing I have to register my objection at this stage and would welcome further discussions to resolve the problem.

Many thanks
Sally
