

Materials to paint walls: Cornish cream exterior masonry paint

RAL No: 9001

Specification Windows/Doors: Virgin PCVu wood grain, fully steel-reinforced to meet British standards which are energy efficient (A+10 thermal energy rating in double glazing), compliant with current FENSA regulations

RAL No: 7016

FENSA Regulations: FENSA regulations are the standards established by the Fenestration Self-Assessment Scheme (FENSA), a government-authorized scheme for window and door installers in England and Wales to ensure their installations comply with building regulations for energy efficiency and safety

Rainwater Goods: We have kept the existing downpipe but replaced the gutter in colour black like for like. It was in a very poor condition.
