

Plant Schedules

Species	Size (at planting)	Hedge H1 (30m)	Hedge H2 (23m)	Hedge H3 (140m)	Hedge H4 (4m)	Hedge H5 (50m)	Hedge H6 (60m)	Totals
Acer campestre	40-60cm	6 (10%)	12 (10%)	70 (10%)		25 (10%)	30 (10%)	143
Cornus sanguinea	40-60cm						30 (10%)	30
Corylus avellana	40-60cm	12 (20%)	22 (20%)	105 (15%)		50 (20%)	30 (10%)	219
Crataegus monogyna	40-60cm	30 (50%)	57 (50%)	350 (50%)	10 (50%)	125 (50%)	135 (45%)	707
Frangula alnus	40-60cm	9 (15%)	12 (10%)	70 (10%)			45 (15%)	136
Prunus spinosa	40-60cm			70 (10%)	10 (50%)	50 (20%)	15 (5%)	145
Rosa canina	40-60cm	3 (5%)	12 (10%)	35 (5%)			15 (5%)	65
Total		60 (100%)	115 (100%)	700 (100%)	20 (100%)	250 (100%)	300 (100%)	1445
Feathered trees								
Quercus petraea	1.0-1.2m	2no	2no		2no			6
Salix alba	1.0-1.2m	3no						3

Hedge planting to be in double staggered rows at 5 plants per metre; protected by 600mm high spiral guards, staked with canes
Trees to be protected by 1m high tubes, suitably staked. All plants to be bare root stock.

Legend

- New mixed native species hedge
- Hedges to be reinforced and allowed to grow on to min 3 - 4m high and maintained at that height
- Hedgerow maintained at or above existing height

Proposed Planting and Boundary Treatments

Hedge H1
Gapping up required over approx. 20% of hedge (30 metres). Hedge protected by existing stock fencing.

Hedge H2
Gapping up required over approx. 10% of hedge (23 metres). Hedge protected by existing stock fencing.

Hedge H3
New hedge to be planted into cleared ground on farmyard side of existing post and rail stockproof fence.

Hedge H4
Gapping up required over approx. 10% of hedge (4 metres). Hedge protected on field side by existing stock fencing.

Hedge H5
New hedge to be planted into cleared ground on east (farmyard) side of existing stockproof fence.

Hedge H6
New 1.1m high treated timber post and 3 rail fence, with wire stock netting and single strand of high tensile barbed wire to top fixed on north/east (field) sides, to be provided on boundary between garden and field with new hedge planted on south/west (garden) side.

Note:
Hedge numbers are referred to in the report
