Subject: Object to HMO 25/0239

Hello

This is the 3rd time I have objected to the HMO application for 24 Llanwern street, NP19 0BZ. We have had trouble in our street with Romanians that got evicted 10 months ago after causing trouble in our street for over 10 years. Numerous calls to the police and the rangers and nothing was ever done with their anti social behaviour. They partied until early hours during lockdown when no parties were allowed, and the police didn't do a thing. We also had crack heads squatting two doors up. Again, numerous police visits and police smashing the doors down in the middle of the night. That went to court and after 2 years they were also evicted. Finally, the street is peaceful. We own our houses and the few houses that are rented out, there is always trouble. When we work full time and you are awake most of the night with music blasting or fighting in the street, it's depressing. I strongly once again object to this HMO house opening at the back of my house. Once they are in causing trouble, nobody has the authority to get them out. Absolutely not.

I am sure in an application to open an HMO house in your street, you would also object.

Please note, your website is down and none of my neighbours can submit the objection form either. They are elderly and this worries me that you will go ahead and open the HMO house thinking we do not want object.

Many thanks
