I refer to the above application passed to the Environmental Protection Team for comment.

I confirm I have no objections to the proposals; however the following condition should be attached to any permission granted;

Waste Storage and Recycling

There is a lack of information regarding the waste storage and recycling facilities that will be provided to serve the future development. Therefore, either additional information is required or the following condition is recommended;

Prior to first beneficial use, a scheme for the provision of waste storage and recycling shall be submitted to and approved in writing by the local planning authority. The approved scheme shall be implemented prior to first beneficial use and thereafter maintained for the duration of the use.

Reason: To ensure that the amenities of occupiers of other premises in the vicinity are protected

No development shall take place until a site specific Demolition and Construction Environmental Management Plan has been submitted to and been approved in writing by the Council. The plan must demonstrate the adoption and use of the best practicable means to reduce the effects of noise, vibration, dust and site lighting. The plan should include, but not be limited to:

- Procedures for maintaining good public relations including complaint management, public consultation and liaison
- Arrangements for liaison with the Newport City Council Noise & Neighbourhood Team
- Deliveries to and removal of plant, equipment, machinery and waste from the site must only take place within permitted hours

- Measures for controlling the use of site lighting whether required for safe working or for security purposes.
- Measures to mitigate demolition dust and material causing a nuisance to local residents, for example sheeting of loads and wheel washing apparatus

Reason: To protect the amenities of occupiers of other premises in the vicinity
