

SPRAY PAINT COLOUR SPECIFICATION

Proposed finish for CCTV camera casings and alarm boxes associated with the Listed Building Consent application at the Islamic Society for Wales.

Specification	Detail
Colour Standard	RAL 1001 – Beige 
Finish	Matt (preferred) or low-sheen satin finish.
Appearance	Warm light ivory colour intended to blend sympathetically with the existing natural stone façade and minimise visual prominence.
Substrates	Metal and rigid plastic CCTV camera casings and alarm boxes.
Coating Type	Exterior-grade polyurethane or acrylic spray coating suitable for external use on metal and plastic substrates.
Durability	UV-stable, weather-resistant coating designed to provide a durable exterior finish suitable for long-term outdoor exposure.
Application	Apply over an appropriate primer and/or plastic adhesion promoter where required. Components should be spray coated off-

	site prior to installation wherever practicable to achieve an even factory-quality finish.
Purpose	To minimise the visual impact of CCTV equipment by providing a sympathetic colour finish that complements the existing stonework of the listed building.
