Description of Proposed Works

Please describe the proposed works

Replacement windows with UPVC casement windows, split to mimic what the original windows would have looked like - containing Georgian bar at the top and clear glass (frosted for bathrooms) at the bottom section. bottom sections will have openings to enable fire safety access/escape.

One additional window opening to be created in the kitchen area - see side extension plans. new windows will provide extremely improved heating efficiency to the property as well as security and an improved look to the property.

Current windows are a mix of original and newer wooden frames with single pane glass (mostly rotten and beyond repair some are dangerous) and aluminium frames - both single and double glazed units. Some windows have been ordered but not yet fitted for the most urgent replacement needs where safety and security are an issue (including one window where the pane is at risk of falling out and has currently 'dropped' into the frame leaving a 2 inch gap affording no barrier from the weather)

Has the work already been started without planning permission?

- ☒ Yes
- ☐ No

If Yes, please state when the development or work was started (date must be pre-application submission)
