Hi Geraint,

Sorry for the delay in replying.

Clements Ecology have been instructed to deliver the additional requirements detailed by Katie below. They will schedule the site visits at the appropriate intervals, the first of which would be when the otter work and other landscaping, etc. is done.

I trust that this is sufficient to allow for the discharge of condition 9, however if you need further information please do not hesitate to contact me.

Kind Regards,

Llyr Morris – Graduate Planner

Hello Llyr

I'm looking to get this one written up. If you can confirm the additional details the Ecology Officer is looking for then I should be able to get this application onto the next delegated agenda.

Subject: CONIN 17/0211

Dear Geraint,

Thank you for consulting the Ecology Officer.

I welcome the incorporation of bat and bird boxes recommended in section 3.2.8.

Once all of the management plan recommendations have been implemented photographs of the finished works will be required to be sent to the NCC Ecologist.

Details of the Ecological Clerk of Works and the supervising ecologist will need to be submitted and agreed prior to commencement of works.

The works implemented in the management plan will need to be assessed after year 3, 5 and 7 to determine whether they are suitable and are establishing. If not details of methods to remedy the situation will be required. If shrubs/trees/wildflower mixes fail these will need to be re-assessed and re planted and management regime updated.

Kind regards
