| Comments:            | <p>I have already raised an objection but would like to explain in more detail why. The school has an expansive outside parking area that would be suitable to accommodate the shipping containers. There is no information about where the proposed site is but I suspect as we have been contacted that the location is adjacent to the school building and therefore nearby the block of flats in which I reside. The reasons for my objection is as follows:</p> <p>A) The containers would be visible from both of my bedrooms and the living room. They are large and unsightly.</p> <p>B) The light that comes into my bedrooms and living room largely comes from the school car park as there are large trees directly outside my property which block natural light. According to Newport council I cannot ask for the trees to be cut down as I do not have 'right to light' and so depend on the light coming in from the left of my property i.e the school.</p> <p>C) There would be associated noise from the school accessing the containers to add or remove items.</p> <p>D) As the containers have a flat surface, there would be increased noise when raining which is already an issue from the main building.</p> <p>E) I currently enjoy the view from my windows on non school days when the car park is empty as it's the only view that I have due to the trees. If containers are placed nearby I will be deprived of this small pleasure.</p> <p>Should you wish to visit my property to consider my objections or have me submit photographs</p> |

to support my reasons I would be more than happy to accommodate you.

Thank you for your time.
