

8 Courtney Street
Newport
NP19 7AW

Dear Sir,

I wish to comment on proposed plans to build 248 houses on the Riverside and Glevelands.

I've only had a small map from Lpenhells, it is so small it's impossible to read. I only heard there was a proposed roundabout at the end of Courtney Street from someone else. I couldn't get to the meeting, as I have no one in Newport to take me + the bus goes nowhere near the school.

It seems ridiculous to have only one way in & out, the traffic even after it was open would be bad. 248 houses how many cars? School runs once there is a road up there.

How will fire engines and other emergency vehicles and large lorries get up there? Clarence Place is already jam-packed + Turner Street the bridge too low and only one lane.

I don't have Internet, or a computer.

I've had a letter from A.M. Jessica Morder and have contacted Councillor. Hutchins who has said he will send someone ~~near~~ to

talk to me.

I wished to put this in writing
and hope you can help.

We are already struggling to
get the trees & drains sorted-out.
Have been for years. We have a
meeting on 24 January at the office of
Mohammad Asghar, but last march we had
one in the road & nothing has been done
to our end of the street. Last time the
councillor who was to attend "was called
away"

There is the park & no pavement
that side of Country Street & when a
lot of cars park there it makes it very
narrow & difficult to get through

Hoping you will be
able to help I remain

Yours faithfully
F. Audrey Hammond

(MRS F. A. HAMMOND)
