Please note

We provide the flood risk information for the area around the property address. We cannot give the flood risk for individual buildings because this depends on building features, such as internal floor levels, and other local factors like drainage conditions.

The risk level takes into account the effect of any flood defences that may be in this area. Flood defences reduce, but do not completely stop the chance of flooding as they can be overtopped or fail. View our Flood Risk Map to understand the flood risk across the area.
