Identification of Tree(s) and Description of Works

Before answering these questions you might find it helpful to consult a tree surgeon to clarify what needs to be done.

Please provide a full and clear description of:

- The proposed works
- The trees affected including species and location

- * Removal of silver birch on boundary between Cedar House and 26 Goldcroft Common/Croft Cottage
- * Removal of dead Lawson's cypress tree at rear of property
- * Removal of pine tree on the left of the garden, overhanging 25 Goldcroft Common/Rose Cottage
- * Pollarding of willow on the right of the garden, opposite pine

Trees protected by Tree Preservation Order should be numbered according to the First Schedule of the Tree Preservation Order. For example - T3 oak; two beech and one birch in G2.

You must identify the trees on a sketch plan showing the location in relation to building(s), named roads and boundaries.

Please state the reference you have given the plan (as described above)

Your plan needs to show the precise location of the tree(s) in relation to nearby property/roads/boundaries. It should, therefore:

- indicate the main features of the site where the tree(s) stand and its surroundings; in particular, you should:
 - mark and name surrounding roads
 - sketch in buildings, including adjoining properties
 - add house numbers or names
- mark the position of the tree(s) to which you want to carry out work
- identify them by the number shown in the Tree Preservation Order where possible; if you use a different number, please make sure that this can be matched with your description of the tree(s)
- if there are many trees on the site, make clear which tree(s) are included in this application by:
 - marking all trees on the plan, but only numbering those to which you want to carry out work
 - showing the approximate distance between the application tree(s) and buildings
 - adding other relevant features on the site (e.g. greenhouse, paths)

If it is impossible to identify the tree(s) accurately on the plan (e.g. because they are part of a woodland or group of trees), please identify their approximate location on the plan and provide details of how the tree(s) are marked on site (e.g. high visibility tape, tree tags, paint, etc); trees must not be marked by scarring or cutting into the bark.

Trees - Reason(s) for work(s)

Please state the reasons for carrying out the proposed works on the tree(s)

- * The pine tree is very large and blocks light to the garden. Concerned about damage to the boundary wall
- * The Lawson's cypress is dead
- * The silver birch is overhanging towards my property and my neighbour's. I have planning permission to construct an extension on the ground floor and I am concerned at the impact digging the foundation will have on the health of the tree. Additionally it has pushed the fence over on the boundary.
- * The willow needs pollarding as maintenance

Do your reasons for carrying out the proposed works include any of the following

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall

- ☒ Yes
☐ No

If Yes, you will need to provide a report by a tree professional (arboriculturist)

Alleged subsidence damage

- ☐ Yes
☒ No
