Subject: RE: Planning Consultation Request for case ref: 25/0474

Dear Grant,

I have no comments in respect of the above application in terms of air quality.

In terms of contaminated land in respect of the above application I recommend the following informative be included:

-We have no specific objection to the proposed maize clamp; however, we note that NRW have provided comment in regard to best design principles / construction / initial operation of the agricultural installation. These relate specifically to any potential risk to controlled waters. Please request the applicant carefully consider and act on the NRW comments.

Kind regards / Cofion gorau,
