

8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent for proposed works to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

Tree in question recently shed a large co-dominant stem into field side, leaving property-side of crown with increased exposure and increased risk of failure.

To eliminate risk of property damage, the safest option is removal. However client has already been encouraged that a monolith might be a more eco friendly option where we might reduce the stem to a height where it no longer poses any risk to property or personnel.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. It is diseased, fears that it might break or fall:

☒ Yes ☐ No

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser).

Alleged subsidence damage:

☐ Yes ☒ No

If Yes, information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in the vicinity and its management since discovery of the damage.

9. Trees - Additional Information

Are you providing additional information in support of your application?

☐ Yes ☐ No

If Yes, please provide the reference numbers of plans, documents, professional reports etc in support of your application:

What 3 words included on other page.

Photos of tree taken on visit, if required please request them via email @ clarke.Treeevolution@gmail.com.
