Subject: RE: Fwd: CONEX/15/0408 - land to South of and including Glebelands, Bank Street, Newport

Hi Geraint

Overall I am satisfied with the changes now incorporated into the Remedial Strategy. However, one thing I would note is that the report does not confirm if the Environmental Permit for the use of the offsite materials has been approved by NRW. As previously stated I would prefer confirmation of the permit to be included in the report and referenced in an Appendix. I'm not sure if Andrew at NRW can provide any further confirmation on the permit.

Best regards
Jason

Dear Both

Please see the attached updated remediation strategy for the above application. As I understand it the new document incorporates the changes that you requested. Please may I have comments by 09/06/2015?

Hi Darran

Please find the amended Remediation Strategy attached with the changes previously emailed to the NRW (not heard yet whether this is acceptable) and changes required by Jason Bale – membrane (see Section 3.2.1) and update of guidelines – lead and other newly revised guidelines for PAH and PH.

Would you like me to send this across to Jason Bale?

Thanks

Ruth Howells
