Dear Sir

**Re: Installation of an emergency hydrogen relief vent pipe:
Stephenson Industrial Estate, Unit 2 Stephenson Street, Newport.
Pl.App.No.: 26/0613**

Thank you for notifying us of this application; consequently, we have reviewed the detailed information contained on your website.

We have consulted the regional Historic Environment Record and note that the application area is situated within the Archaeologically Sensitive Area of Newport, although there are no designated sites within the immediate vicinity.

The proposed development involves the installation of an emergency hydrogen relief vent pipe. The development area is within a complex of recent industrial buildings, the construction of which will have led to extensive ground disturbance and had an adverse effect on any potential remains that may be present.

As a result, there is unlikely to be an archaeological restraint to this proposed development. Consequently, as the archaeological advisors to your Members, we have no objections to the positive determination of this application. The record is not definitive, however, and features may be disturbed during the course of the work. In this event, please contact this division of the Trust.

If you have any questions or require further advice on this matter please do not hesitate to contact us.

Yours faithfully

Mike Jones
