Public Right of Way Comments

As this is retrospective planning I would have provided the below in relation to building work. I am assuming that the PROW has not been affected in any way as a result of build.

The following points should have been considered:

1. All PROW's (as shown on the Definitive Map) are legally required to remain completely unobstructed and be clear and available for safe public use at all times (including during construction works – unless a temporary closure/diversion order is applied for and granted beforehand);
2. The PROW users must not be endangered or disadvantaged in any way by the proposals (during construction and following completion);
3. The fabric of the PROW's must not be adversely affected in any way;
4. PROW users must be protected from any vehicles/plant associated with the works. All potential conflict should be risk assessed and managed accordingly.

Cofion cynnes / Kind Regards,
