

**DEVELOPMENT OF 206NO. RESIDENTIAL UNITS, INTERNAL ROAD NETWORKS, PARKING, LANDSCAPING AND ASSOCIATED WORKS AFFECTING PUBLIC RIGHT OF WAY 407/1**

**From:** Katie Godfrey (Ecology Officer)  
**Sent:** 25 April 2018 14:57  
**To:** Geraint Roberts (Principal Planning Officer)  
**Subject:** CONIN 18/0293

Dear Geraint,

Thank-you for consulting the Countryside and Conservation Manager.

I welcome the submission of the otter mitigation. I do not object to the application as all potential ecological impacts appeared to have been addressed in previous applications.

Could I seek clarification however as to the bund that is running along the top of the river bank. What materials are being used to build this? Also, what species are proposed to be planted on this?

The CEMP will need to be conditioned.

Kind regards

**Katie Godfrey**
