To whom it may concern,

Ref 13/1279 Planning application.

I am writing to place my objection regarding this planning application. The reasons for this objection are centred on school places, I am concerned that after moving back to the St Julian's area so that my little boy could attend Glan Usk this planning consent may jeopardise this.

I am also concerned about the access to the site. This seems to be via Morgan Street opposite my house or the roads leading to my house, this creates a lot of noise, mess and also the destruction of the road surfaces. There are already huge pot holes forming in the lane that connects Morgan Street to Courtney Street.

I am also concerned that with such a large housing estate this would entice gangs to congregate in the area causing a nuisance. There would also be a noise implication from such a large development from both the building works and then ultimately the residents who move in.

I hope these objections will be taken seriously and looked into properly, with some comfort being fed back to the community as a result of these concerns.

Yours Faithfully,

Lisa Hodge
