

REFERENCE: 25/0799

PROPOSAL: SITING OF 3 NO. SHIPPING CONTAINERS WITHIN SCHOOL GROUNDS

SITE: St Woolos Primary School, Stow Hill, Newport, South Wales, NP20 4DW

APPLICATION TYPE: Full

CASE OFFICER: Catherine Aldous

RECOMMENDATION: **ADDITIONAL INFORMATION REQUIRED (Please re-consult when received)**

Comments:

No objections in principle however could be clarified:

- Are these storage containers to be permanent features?

If yes, then they should be screened from the highway to mitigate the negative visual impact, especially as this is an Archaeologically Sensitive Area. Details of this feature should be submitted for approval.

This could be in the form of a suitably high, raised planter, trellis and climbing plants, or a willow/bamboo cane screening fence (e.g. below left). Additionally, regarding sustainability, biodiversity and educational benefit, could a biodiverse green roofs and insect hotels be incorporated (e.g. below right).
