Subject: RE: Planning Consultation Request for case ref: 26/0306

Hello,

No objections, the proposed works will not have a long term effect on the health of the trees. Willow trees are historically managed as a pollards and it can help in their long term retention.

Conditions

1) all work must be to BS3998

2) The willows must be pollarded at the previous pollard points i.e. the knuckles.

Cofion Cynnes / Kind Regards,

Richard Baron
