PROPOSAL: OUTLINE PLANNING PERMISSION WITH ALL MATTERS RESERVED FOR THE ERECTION OF ONE DWELLING

SITE: 20 High Cross Drive Rogerstone Newport NP10 9AB

Case Officer: Marnie Ostler

Highway Officer: Kevin Jackson

Following receipt of further information, we would update our comments as follows

Highway recommendation:

No objection subject to conditions.

Highway Comments:

Following receipt of drawing 4527.PL.04 D we can now confirm that the access is acceptable and there are no objections to the proposals subject to the following conditions.

Suggested Conditions:

The development shall not be implemented until the surface water drainage of the site has been designed to prevent the discharge of water on to the highway.

Reason: To prevent unnecessary surface water from being deposited on to the highway thus causing a potential source of danger to other road users.

No part of the development hereby approved shall be occupied/opened for trading until the visibility splays defined on Drawing No. 4527.PL.04 D are cleared of all obstructions to visibility exceeding 600mm in height above footway level. The visibility splays shall subsequently be maintained free of any visual obstruction thereafter.

Reason: To ensure adequate visibility at the street junction or site access in the interests of road safety.

The dwelling shall not be occupied until a means of vehicular access and access for pedestrians has been constructed in accordance with the approved plans.

Reason: To enable vehicles to enter and leave the premises in a safe manner without causing a hazard to other road users in the interests of road safety.

Before the access is used for vehicular purposes, that part of the access extending from the nearside edge of the highway boundary of High Cross Drive for a minimum distance of 5 metres into the site shall be appropriately paved in a bound material such as tarmacadam, concrete, block pavements or other material approved in writing by the Council as Local Planning Authority.

Reason: To prevent loose surface material/debris from being carried on to the public highway thus causing a potential source of danger to other road users in the interests of road safety.

No gates or other means of obstruction shall be placed across the vehicular access formed as part of this development.

Reason: To permit vehicles to pull clear of the carriageway when entering the site in the interests of road safety.

Except for site clearance and remediation no development shall take place until a scheme for the provision of cycle parking in accordance with the Council's current standards has been submitted to and approved in writing by the Council as Local Planning Authority. The scheme shall be implemented as approved before any part of the development is brought into use and shall be retained as such thereafter. Notwithstanding the provisions of the Town and Country Planning Act (General Permitted Development) Order 2015 (or any Order revoking or re-enacting that Order) no building works, which reduce this provision, shall take place except following the express grant of planning permission by the Council. For the avoidance of doubt a 4x6ft shed would be anticipated.

Reason: To ensure that adequate provision is made for parking cycles on the site; and to establish measures to encourage non-car modes of transport.

A scheme for the provision of electric vehicle charging points, or passive provision, shall be submitted to and agreed in writing with the Local Planning Authority. The agreed scheme shall be provided prior to first occupation of each unit and retained as such thereafter.

Reason: To ensure that appropriate provision for current and future electric and electric/hybrid vehicles and encourage more sustainable means of transport.

Informative Notes:

It is an offence to carry out any works within the public highway without permission of the Highway Authority. This consent requires the construction, improvement or alteration of an access to the public highway. Under Section 184 of the Highways Act 1980 the Highway Authority must specify the works to be carried out and only the Highway Authority or contractor approved by the Highway Authority can carry out the works. Therefore, prior to commencing any works that affect the access you must contact the Council's Highway Maintenance Team for further details.

Street name and/or property numbering is required as part of this development. Developers are required to contact the Council who are the street naming and property numbering authority to arrange for addresses to be attributed to the development. Developers or property owners cannot attribute property numbers or addresses themselves. In the first instance, the applicant is required to contact the Council's Traffic Management, Road Safety & Adoptions Team for further details. Please note there is a fee for this process which shall be advised upon application.

The applicant is reminded that it is an offence to allow material to be carried from the site and deposited on or cause damage to the highway from uncleaned wheels or badly loaded vehicles. The Highway Authority will seek to recover any expenses incurred in clearing, cleaning or repairing highway surfaces and will prosecute persistent offenders under Sections 131, 148 & 149 of the Highways Act 1980.
