

31st July 2025

Dear Sir/Madam,

I enclose a copy of Solutia's application for Continuation of Hazardous Substances consent under the Planning (Control of Major Accident Hazards) Regulations 2015 and Planning (Hazardous Substances) Wales Regulations 2015.

The required publicity steps were completed during July 2025. An advertisement was placed in The South Wales Argus on July 16th 2025, and the same information was posted on our land, next to the pavement on Traston Road, over the period July 16th to August 6th 2025. I have included a copy of this advert.

The application is made due to additional new Therminol products being produced at the site that fall under Aquatic Toxicity (chronic) Category 1, as well as other corrections and minor changes.

The following new products will be produced and stored:

- Therminol 75
- Therminol VP3
- Therminol 66J
- Therminol 68

Please note that the use of some materials is strictly commercially confidential, so I have provided both public and commercially confidential versions of the forms. Commercially confidential items are marked in yellow. The changes described above are highlighted blue for clarity.

I have also enclosed a copy of our existing Consent 17/0907 and previous versions 14/0270, 13/0219, 07/1586, 03/0157, 02/0807 and 01/1111.

A drawing list is also included.

If you need any additional information, please do not hesitate to contact me.

Yours sincerely,

Rhys Price
