Subject: FW: Planning Re-Consultation Request for case ref: 26/0471

Hello Lydia,

The updated location provided still does not demonstrate the development is sufficiently away from trees to not require a BS 5837 survey as it has been moved closer to the woodland. In addition there is no indicate of the access route or construction type for both construction and post development which may impact trees.

Therefore our objection remains.

Cofion Cynnes / Kind Regards,

Richard Baron
