

12/6/26

Dear Tree Officer,

We are writing to formally submit an application for proposed tree works at The Ffwrwm, High Street, Caerleon, NP18 1AG, located within the Caerleon Conservation Area.

The property is designated as a Scheduled Monument [description of the site](#) we have previously been in contact with Newport's Heritage Department and also CADW [including a site meeting] for information on the site and have provided contacts for completeness.

Newport City Council - Arnall, Guy guy.arnall@newport.gov.uk

Cadw - (ECWL - Cadw) Will.Davies@gov.wales

From CADW's perspective, it is our understanding that works above ground are permissible.

Please see the attached Schedule and Application Form submitted for the proposed works

- **Tree reference:** T1 to T10
- **Species:** Various
- **Proposed works:** Tree management and maintenance, to include felling, height reduction, thinning and deadwood removal
- **Photos** Various

Where felling is requested, to maintain the character of the Conservation Area, we propose planting suitable shrubs within the property at the next available planting season. This ensures continued amenity value and aligns with Conservation Area expectations.

We believe the proposed works are necessary, proportionate, and in the interest of public safety and long-term site management.

Also we are happy to supply further information if required and would welcome a site meeting.

Regards

Tiff
