

Site Plan (DR-1553-E-08)

Schwegler 1FQ Bat Box

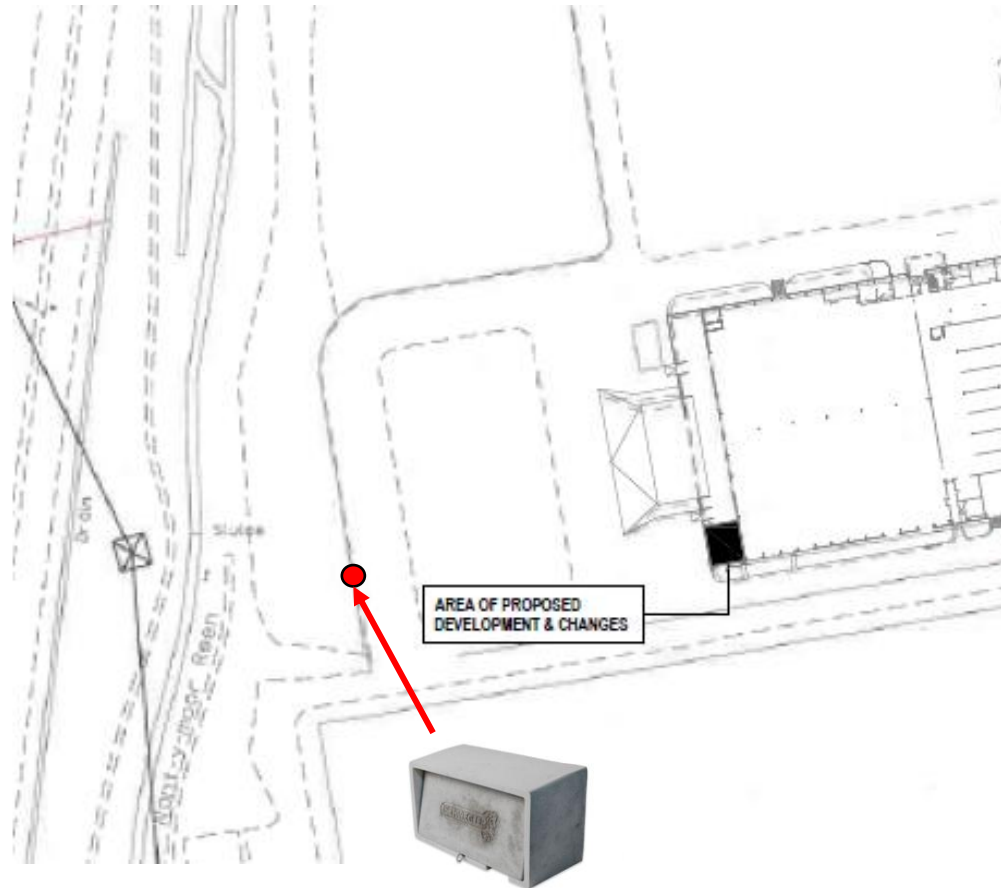

A Schwegler 1FQ Bat Box will be installed on one of the metal posts to the west of the site boundary.

The location benefits from direct access to sunlight from the south, as the bats can tolerate and prefer high levels of temperature in their roost. These are available to purchase on the following link:

Site Plan (DR-1553-E-08)

A No 16 Schwegler Swift Box will be installed on one of the metal posts to the west of the site boundary. This location is also adjacent to the existing woodland area, and therefore provides an accessible habitat for local birds. These are available to purchase on the following link:
