Subject: Planning Appeal

Morning

I wish to submit a planning appeal for the following property.

Planning Ref 26/06/20

Address. 7 Conway Road NP19 9PA

Changing this building to a 4 bed house of multiply occupation would make the roads in this area more congested than they are.

Parking is extremely poor at present. We already have a business on one corner.

It's a residential area, parking is a issue as it is. The extra traffic this building would bring would be a danger to pedestrian, All corners in that area are blind spots both for pedestrians and cars due to shortage of parking.

I spoke to councillor Mark Spencer 2 years age regarding something similar.

As a residential area it's not suitable for anymore dwellings due to parking safety issues.

I look forward to hear from you.
