Subject: RE: 21/0048 - Land To South Of Glan Usk Primary School Herbert Road - Remedial Strategy
Importance: High

Morning Steve,

As Principle contractor (Engie) for this development I can confirm we will ensure a double no dig barrier in line with your comments below. All SI reports and references to double no dig barriers have been included in the groundworks enquiries which has been priced. The use of this material will be checked by Terra Firma when they come to check the 300mm depth of soils In the POS areas north of the reen.

Note: As previously mentioned the groundworkers reserve the right to purchase a product in-line with their buying power whether this be Wrekin, Tensar or other. I can forward on a data sheet once made available.

Please feel free to give me a call on 07871573906 if you wish to discuss further

Kind Regards
Tom
