Letter Of Support

Business Dragon League RC (Gwyn)

I am thrilled to be part of Dragon League RFC and extremely grateful for the support we receive from SGM Waste, who are our main sponsor. Dragon League RFC is a rugby league organisation that provides an opportunity for players of all ages to get involved in the sport locally. Although we are governed by the WRU, we do not operate under the full national league structure.

This allows us to be more inclusive, attract a greater number of participants and provide a less competitive environment where people can simply enjoy playing rugby league, regardless of their age or ability.

SGM Waste's sponsorship has had a huge positive impact on our club. Their support has allowed us to grow, involve more clubs and attract more players and members of the local community. As our participation increases, so does awareness of the club, creating greater publicity and helping us establish a stronger presence within the local area.

The sponsorship also provides opportunities for the development of young referees, allowing them to gain valuable experience on the pitch and develop their refereeing skills. At the same time, it enables older and more experienced referees to remain involved in the sport, even if they are no longer as physically fit as they once were. This is extremely valuable because it allows people who still have a passion for rugby league to continue contributing to the game.

Another important benefit is our ability to retain players under the age of 23. Without opportunities such as those provided by Dragon League RFC, many young players may otherwise leave the sport. Those who do progress elsewhere often go on to play for first or second teams, which is a fantastic achievement in itself. Our one side and SGM Waste on the other. These coins will be used by our referees at

the beginning of matches and will continue to be aim is to continue providing a pathway that keeps young people involved in rugby league and connected to their local community.

As part of the sponsorship, we have also created special commemorative coins, featuring Dragon League RFC on one side and SGM Waste on the other. These coins will be used by our referees at the beginning of matches and will continue to be used for many years. They are a lasting reminder of the partnership between SGM Waste and the club.

Most importantly, we want everyone involved with Dragon League RFC to have a positive experience, whether they are a player, referee, volunteer, coach, parent or supporter. SGM Waste's sponsorship helps us achieve this by allowing more people, both young and old, to participate and remain involved in the sport.

The benefits also extend to families and the wider community. The more people who become involved with the club, the greater the opportunity for local spending and activity around the club, while also creating stronger social, brings people together and creates a genuine sense of belonging. It strengthens support and proud to have them as our main sponsor. We very much hope that our relationship can connections.

For us, SGM Waste's support is invaluable. It helps keep players involved locally, brings people together and creates a genuine sense of belonging. It strengthens the connection between the club, local families and the wider community.

We are extremely grateful for SGM Waste's continued support and proud to have them as our main sponsor. We very much hope that our relationship can continue to grow alongside the club and the wider community.

Yours faithfully,

Gwyn

Dragon League RFC
