Letter Of Support

Fleet Wheel Cardiff- Richard

We have been working with SGM Waste for the past 12 months, and they have quickly become one of our valued and best customers. We provide servicing and maintenance for their vehicles, supply parts, and assist them with their day-to-day vehicle requirements. The volume of business that SGM brings to us has had a very positive impact on our company, keeping our workshop and parts departments consistently busy.

We have found SGM to be a highly professional and reliable company. They are very easy to work with, and their accounts are always settled on time. The business they place with us on a daily basis makes a meaningful contribution to our sales and helps us achieve our business targets. Without this additional work, we would see a significant reduction in our turnover and a noticeable impact on our finances. We operate multiple branches, with our Cardiff depot being one of our largest locations. SGM has already contributed to the growth of our business, and we see considerable potential for this relationship to continue developing as their business expands.

As a business, we fully support SGM Waste's planning application. Their continued growth will not only create additional employment opportunities and benefit the local economy, but it will also generate further work for businesses such as ours and support other local suppliers and service providers.

We believe the proposed expansion will be positive for the local economy, the community and employment, while also supporting the important work SGM carries out in sustainable waste management and recycling. We are therefore pleased to give our full support to the planning application and hope it is approved.
