Letter Of Support

Emlyn Canvas & Cordage (Newport)

From SGM Waste's perspective, we fully rely on Emlyn Canvas for the supply of our debris and skip net covers, as well as a range of canvas and PVC products, including trailer covers, lorry sheets and nets, ropes and ratchets, elastic cord, and budget poly sheets.

These products play an essential role in ensuring that every load we transport is properly covered, safe, and secure throughout transit. We have been using Emlyn Canvas for the past three and a half years and have been extremely happy with the service they provide. They are a trustworthy, reliable, and professional supplier who consistently delivers a high level of service.

We spend approximately £x [Redacted] per year with Emlyn Canvas to ensure that our loads are kept safe and secure during transportation. Emlyn Canvas is a local, Newport-based company, and we value the reliability, quality, and support they provide to SGM Waste.

Yours faithfully

SGM Waste Management
