Subject: LETTER OF SUPPORT - Planning Application Ref 26/0350 - Sluice Farm, Peterstone CF3 2TN

Letter Of Support

Parfitt Tyres

I have worked with SGM Waste Management since the beginning of the business and have had a long-standing relationship with the family for approximately 15 years. Prior to working with SGM, I also worked with George's father, who I assisted with repairing and replacing tyres on the horse boxes.

I provide tyre services across SGM's fleet, including repairs, replacements and roadside assistance when required. I have always had an excellent working relationship with the family. They are professional, easy to work with and have always paid on time. This long-standing relationship is testament to the way they conduct their business.

SGM are an important customer to my business, and losing them would have a significant negative financial impact. A large proportion of my monthly income comes from the work I carry out for SGM, which is currently worth approximately £x [Redacted] per month. Losing this level of business would be a substantial financial loss and would have a direct impact on the future of my business.

I fully support SGM's planning application and sincerely hope it is granted. The continued operation and growth of SGM would allow me to continue growing my own business and could provide opportunities for me to employ additional staff, creating jobs and putting money back into the local economy.

Without the work I receive from SGM, I would have to seriously consider reducing my staffing levels, as I would not be able to sustain the current level of employment without the income generated through my work with them.

For these reasons, I fully support the planning application and hope SGM are able to continue operating and growing their business.

Yours faithfully

Name Steve Parfitt

Company - Parfitt Tyres
