Subject: LETTER OF SUPPORT - Planning Application Ref 26/0350 - Sluice Farm, Peterstone CF3 2TN

Letter Of Support

Nigel Trego IT Support

I have worked with SGM Waste since the beginning of the business, providing IT and communications services, including daily support to ensure that the technology systems within the business run smoothly and effectively.

I have always had a very positive working relationship with George and the team. They have an excellent attitude, communicate well and have always been reliable in paying for the services provided.

The work I receive from SGM provides an important source of income for my business and supports my livelihood. If I were to lose SGM as a client, I would experience a loss of earnings that would have a significant impact on my business, and I would need to seek additional clients to replace that lost income.

I fully support SGM's planning application and their continued operation. I believe the application presents an excellent opportunity to create further employment within the local community, while also supporting the positive work SGM does in relation to waste management, recycling and the environment.

I am pleased to support the application and hope it is successful.

Yours faithfully

Name - Nigel Trego

Company - IT Support
