Letter Of Support

Haus Of Clean Jodie

I have been providing cleaning services to SGM Waste for the past three months and have found them to be a pleasure to work with. I am responsible for cleaning several areas, including the office, staff canteen, weigh bridge and the family home. This involved an initial deep clean, followed by regular cleaning to a high standard.

George takes pride in ensuring that the workplace is clean, tidy and safe for his employees, which I believe shows the importance SGM places on its staff and working environment.

The work I receive from SGM is an important source of income for me, I currently provide approximately five hours of cleaning each week, so losing this work would have a direct impact on my monthly income , SGM have always paid me on time and communicate well, so I always have a clear understanding of what is required.

I support SGM's continued operation and growth, as this could potentially provide me with additional work and income in the future. If the business continues to grow, I would also hope to be able to take on additional staff to help maintain the high standard of service that I pride myself on.

I also believe SGM makes a positive contribution to the local community through the employment opportunities they provide, their waste management and recycling work, and the wider environmental benefits of their operations.

I am therefore very happy to support SGM and the continued work they are doing within the local community.

Yours faithfully

Name. - Jodie
