Letter Of Support

### **Adam Clark Social Media Manager**

I am pleased to provide this letter in support of SGM Waste and their current planning application. I have had a professional relationship with SGM Waste since early 2023 and have seen first-hand how the business has developed and grown during this time.

Although there was a period when we were not working together, I have now been providing my services to SGM Waste continuously for the past eight months, and the relationship has been extremely positive.

I am a sole trader, so every client and every piece of work is important to my business and directly contributes to my income. This income provides my livelihood and allows me to pay my bills and rent, support my family, and provide the essentials of everyday life, including food and a roof over our heads.

My role with SGM Waste is to manage and support their social media presence. As SGM Waste has continued to grow, so too has the amount of work I receive from them. This increased workload has not only benefited my business financially but has also given me the opportunity to increase my rates and invest further in the growth and development of my own business.

and SGM Waste are my main client, and their continued custom is extremely important to me. Any significant reduction or disruption to their business would have a direct and potentially serious impact on my own business and income. As a sole trader, I rely heavily on this work to support myself and my family, and losing a significant amount of this income would place considerable financial pressure on us.

I therefore strongly support SGM Waste's planning application and their continued growth and development. In my experience, George has always been considerate of the interests of others and is passionate about what he does. He is also committed to giving back to the local community, and I believe that the successful progression of this application would provide benefits not only to SGM Waste but also to the wider community and the local businesses and individuals who rely on its continued success.

I have found George and SGM Waste to be professional, supportive and good to work with throughout my time as a client. I fully support the planning application and respectfully ask the Council to give it favourable consideration.

**Yours faithfully,**

**Name - Adam Clark**

**Business - Social Media Team**
