Details of the pre-application advice received

The principle of developing this site for residential use is considered acceptable

Of the site plan layout options submitted for comment, Option 2 was considered the preferred option, which retains the existing dwelling and shows two detached new dwellings with spacious garden and open space provision.

The report confirmed that the submission for outline planning approval would need to be supported by the following reports:

1 A noise assessment: see attached Environmental Noise Assessment ref 6255/ENS1 from acoustic consultant Hunter Acoustics dated 14/09/2021.

2 Demonstration of visibility splays: see details on attached site plan JT2001.12 Revision A

3 Tree survey: see attached Arboricultural Impact Assessment ref. edp7317_r002a from The Environmental Dimension Partnership dated October 2021.

4 Ecological Impact Assessment: see attached Preliminary Ecological Appraisal ref E21104901Doc01 from Soltys Brewster dated 20th October 2021.

In addition, in response to the comments in the pre-application report regarding SAB approval, please find attached which demonstrates that the site can accommodate an appropriate strategy for a sustainable drainage solution.

The applicant is of the view that these reports and drawings confirm that non of the above issues should prevent the application for outline planning approval being positively considered.
